

net::WebSocket

```
classDiagram
    class net_WebSocketClient["net::WebSocketClient"]
    class net_WebSocket["net::WebSocket"]
    net_WebSocketClient --|> net_WebSocket
```

The diagram illustrates a class hierarchy. At the bottom is a white rectangular box with a black border containing the text "net::WebSocketClient". A solid blue arrow points vertically upwards from the top center of this box to the bottom center of a gray rectangular box with a black border at the top, which contains the text "net::WebSocket". This represents that net::WebSocketClient inherits from net::WebSocket.

net::WebSocketClient
